

July 23, 1958

Dean Robert Alway
Stanford University
School Of Medicine
Stanford, California

Dear Bob:

On the basis of your letters of July 1 and July 21, 1958, I am happy to accept the appointment to the Stanford medical faculty there outlined. Esther and I look forward to a pleasant and productive association with you and your colleagues, and if we have any regret at all it is that it proves to be inconvenient for us to effect the move immediately.

Enclosed and by separate cover I am sending a number of memoranda dealing with some mechanical details of our moving.

With very best regards,

Yours optimistically,

Joshua Lederberg
